Ag 29 A-3-5

DC- More than half of women who undergo Caesarean can successfully avoid costly, risky procedure in 2nd pregnancy

S 4 B-1-6

Metro Det hospitals working to trim number of Caesareans with educational program to reduce 'repeats'--Angell

-1991-

Ja 2 A 3-1

Higher profits for hospitals may be reason for high rate of "repeat" Caesarean sections. Often not necessary

My 1 A 3-5

Pregnant women who were coached and given emotional support during childbirth were less likely to have to resort to Caesarean sections.

My 13, E 1-1

Emotional support linked to less need for cesareans

-1991-

Jl 22, E-3-1

Number levels off

-1992

F 13 A 2-5

Doctors could reduce the number of Caesarean sections if they took more active approach to treating women who have problems in labor

My 12, A-3-4

DC-Rate of C-sections births dropped 8%, study finds

Je 29 B 4-1

Study by Australian group says Caesarean deliveries don't cut rate of cerebral palsy as was thought

-1993-

Ja 19 A 1-1

Study confirmed that doctors who were sued for medical malpractice do more C-sections. - Angell

Ag 9 E 1-5

Women infected with AIDS are less likely to pass the virus to the newborn if they give birth by a C section.

D 17 A 4-2

Chicago-The Illinois Supreme Court refused to enter a dispute over an attempt to force a woman to have a Caesarean section to save her endangered fetus

D 19 A 5-5

Wash-Supreme Court decided state can't force woman to have Caesarean

D 30 A 5-5

Chicago-Woman who refused Caesarean gave birth to a healthy baby boy

-1994-

F 23 C 4-3

Older mothers and bigger babies have contributed to rising rates of Cesarean section deliveries

My 18 A 1-2

CC-McKenzie Memorial,Dowagiac,MI,has highest rate of Caesarean deliveries in U.S.-Stevens

Ag 14 A 5-1

L.A. - Margarita Espinoza, 38, underwent heart bypass, hysterectomy, and a C-section.

-1996-

S 05 F 1-5

Boston-Mothers who've had Caesarean have slightly higher
than normal risk of complications having baby vaginally

1999

Ja 07 A2-5

Boston-some doctors say lowering # of Caesareans in U.S.
could lead to more injuries/deaths for mothers/babies

O 20 A-4-1

New study suggests pregnant women suffering from 'white-
coat hypertension' makes many C-sections unnecessary
