Welcome to CEPI Announcements

In an effort to streamline communications to the field, while ensuring our users get the information they need on a timely basis, we are now using the CEPI Announcements digest for routine communications. CEPI Announcements will go out twice a month to all users of any applications referred to within the document. Targeted emails, such as Data Quality messages, will still be sent as they have been, but non-targeted emails will be included in the Announcements instead of going out individually.

We hope this will give you the information you need without unduly cluttering your inbox. If you have questions or comments, please let me know.
