

the successive Commissioner of Indian Affairs.

To the Undesignated Chiefs of the Sout  
de St. Marie Band, Saganay bay way deck, Kog,  
bay no. den. Garden River Grand Island, Drum-  
mond Island, Janos of Clippaway Indians in-  
habiting the Upper Peninsula of Michigan,  
respectfully represent that we have advanced  
in the arts of Civilization and are converts to the  
religion of Christ. We are anxious to attain  
still further perfection and to place ourselves upon  
a level with the whites. The only, yet great, ob-  
stacle to our rapid improvement is the fear of  
anotion to the West of the Mississippi under  
which we constantly labor. We desire a certain-  
ty. We wish to know our destiny. We have no  
security, that so we shall inhabit the dwelling  
we erect, or that the crops we plant shall be  
ours. We know, that under the Constitution of  
the State of Michigan we can become citizens  
& that by availing ourselves of its provisions we  
are placed beneath a protection, which no power  
can violate; but in order to do this we must aban-  
don our organization as a tribe & our connection  
with the general government. The last is the proof  
of the first. We are members of tribes so long as  
we approach you, pay taxes. We have a hard  
alternative placed before us - to forego all the bene-  
fits of the treaty of 1836, or to give up the proofs of the  
Constitution. We turn to you as the only power  
that can aid us, & request that you will  
communicate our wants to Congress.

By the Treaty of 1836, we have no voice in the

remove west of the Mississippi. You gurus  
and to us a permanent settlement & lands there.  
Since that treaty was made the reasons which  
rendered our motion necessary have ceased  
to exist. We are at peace with the whites. We are  
becoming educated, Christianized, civilized. The  
vices & bad example of a new country are here  
passing away - we can resist their influence. It  
is the desire of the State that we remain - a desire  
expressed in the most solemn manner, by the  
Organic Law, by frequent resolutions of the  
legislature, by the public press & by memorials  
from the citizens among whom we reside. The  
lands west of the Mississippi are more valuable  
than any portion of the Upper Peninsula, except  
the mineral range of Lake Superior. By remo-  
ving us, you will place us among a larger popu-  
lation of whites than we have here, or will have  
owing many years. You will renew those blighting  
influences from which we <sup>are</sup> just emerging - influ-  
ences which attend the first settlement of our country  
& which will only cease, when your people are  
no longer migratory. You will take from us that  
great safeguard, which the Constitution has  
given to us - a vantage ground which has won us  
many friends & enabled us to exert a power which  
must result in our prosperity. You will rob this  
country of a large portion of its inhabitants - of its  
sailors, fishermen, agriculturists & lumbermen; and  
lastly, you will bar us from all those incentives  
to labor, contented industry, which cluster around

our own & our fathers home. It was here that the  
Clippaway nation was greatest in its days of  
barbarism - it is here that we will be strongest  
in our efforts truest to our purpose of reclaiming  
ourselves & our people. We desire to live here -  
here where every association of the past bids us  
onward to a useful, perhaps a great future - here,  
where the State gives to us a weapon with which  
we may combat the prejudice & opposition of those  
our race have been the victims - here where you  
have millions of acres of land which is yet  
unoccupied. We do not ask this as a gift. We  
are willing to exchange for a permanent property  
here, that which you have promised us West of the  
Mississippi. Let us have lands here to enable  
us to collect our people into municipal com-  
munities, so that we may accept the gift which  
the State is extending to us.

Tant de Ste Marie Nov 1st 1853.
