### **Department Update**

Siracuse updated that the final draft of the Psychology administrative rules has been submitted to the Office of Regulatory Reinvention (JCAR) for review.

Lisa Grost, Michigan Department of Community Health Administrator for the Children and Adults with Autism Spectrum Disorders, distributed packets containing information about the MDCH Autism Program. Grost explained that three (3) positions at MDHC have been allocated and funded to focus on Autism.

The objective is to get autistic children under the age of six (6) years old who receive Medicaid benefits to see an applied behavior analyst. Evidence-based behavior therapy increases the behavior skills of autistic children, with average signs of improvement in three to four months. Services are available until a child/adult reaches 21 years of age.

Grost noted that there is a shortage of board certified Behavior Analysts in Michigan. There are currently eight (8) universities in Michigan that offer a curriculum for Behavior Analysts.

If a child is receiving Medicaid, a referral can be made to the local Community Mental Health (CMH) to request services from a CMH Autism Coordinator.

A question and answer period followed.

## **PUBLIC COMMENT**

Diane Blau, representing the Michigan School of Professional Psychology (MiSPP), noted the school is working towards American Psychological Association (APA) accreditation, and will be submitting an application by September.
