

## MEMORANDUM

January 31, 2007

TO: Governor Jennifer Granholm  
Senator Mark Jansen  
Senator Nancy Cassis  
Representative Richard Hammel  
Representative Barb Byrum

FROM: Michael R. DeVos *MD*  
Executive Director

RE: FY 2006 Housing Production Goals Report

Section 32(14) of P.A. 346 of 1966, as amended, requires the Michigan State Housing Development Authority (MSHDA) to provide the Governor and the appropriate legislative committees with an annual housing production goals report for housing projects financed with bonds and notes by the Authority. The following is the twenty-first such report under this requirement and represents an assessment of FY 2006 and the Authority's goals for FY 2007. The Authority's fiscal year runs from July 1 through June 30.

### I. FY 2006 Production Report

Section 32(16)(a) requires that the Authority report as to whether the production goals for the previous twelve months have been met, and if not, to explain the reason why.

#### **EXHIBIT I DETAILS FY 2006 PRODUCTION BY PROGRAM GOALS, ACTUAL LOANS CLOSED IN FY 2006, AND FY 2007 GOALS.**

The Authority met its goal for FY 2006, financing 5,388 new and rehabilitated units. The Authority's goal was 5,100. A discussion about specific programs is contained in the next section and a list of programs, goals, and production follows. In FY 2006 the Authority distributed over \$43 million in grants to local governments and nonprofit organizations. In addition, the Authority administers the Low Income Housing Tax Credit for the state, which helped to create 3,410 units of affordable rental housing in 69 developments statewide. The Authority also administers the federal Housing Choice Voucher Program (Section 8), and in FY 2006, an average of 22,489 families received housing assistance through this program.

### Multifamily Loan Programs

#### Tax-Exempt Direct Lending Programs

This program represents the Authority's response to localized housing and reinvestment needs by financing rental housing. Funding comes from the issuance of tax-exempt bonds to investors; proceeds are then loaned for construction, rehabilitation, and long term financing. At least 40% of the units must be occupied by households with low incomes (60% of AMI). The program operated in FY 2006 with a fixed interest rate of 6.0% and a current pay rate of 5.5% in eligible distressed areas. For the HOME TEAM Advantage program, financing smaller developments in rural areas, the interest rate was 5.0% with a current pay rate of 4.5% in eligible distressed areas. MSHDA's Preservation

lending parameters were significantly changed in April of 2006. As a result, the interest rate, published weekly, ranges from 6.03% to 6.45%.

In FY 2006, this program financed 2,729 rental units in 28 developments, with a total investment of \$169,296,875. The fiscal year's goal was 1,700 units. The Authority exceeded its goal in this program.

#### Multifamily Pass-Through Program

This program permits the Authority to issue limited obligation bonds on behalf of developers. The Authority's underwriting is limited in scope. Sixty percent of the units must be for renters at 60% of area median income or below. The Authority's primary responsibility is to evaluate the degree to which the borrower's credit security is sufficient to ensure repayment of the bonds.

Two loans closed under this program in FY 2006, representing an investment of \$11,655,000 and creating 236 units. The fiscal year's goal was 1,000 units. The Authority did not meet its goal in this program, because it stopped approving loans due to a lack of resources.

#### Single Family Mortgage Loan Program

This program allows the Authority to finance low and moderate-income mortgages for people meeting income and purchase price limits. The loans are fixed rate, level payment, 30-year mortgages. Optionally, the borrower may elect to take a lower rate for the first three years, to be followed by a higher rate for the remaining term of the mortgage loan. Borrowers must have acceptable credit and the ability to repay the loan. In some areas, federal law permits MSHDA loans only for first-time homebuyers.

In FY 2006, this program financed 1,395 single-family units, representing a total investment of \$137,422,849. The average purchaser of an existing home was 31 years of age, with a household size of two and an average income of approximately \$38,028. The average loan amount was \$97,075. The FY 2006 goal was 1,400 units. The Authority missed its goal in this program by five loans, likely due to the economic slowdown in Michigan.

#### Michigan Mortgage Credit Certificate Program

This program, authorized by Congress in 1984, reduces the amount of federal income tax a homebuyer pays, thus giving the person more available income to qualify for a conventional mortgage and make house payments. Potential homebuyers must meet income and purchase price limits. The lender sets loan terms. The Authority has to turn in a portion of its allocated mortgage revenue bond authority to the U.S. Treasury to utilize the Mortgage Credit Certificates.

In FY 2006, the program assisted the financing of 885 single-family units. The total investment was \$81,812,611. The average age of a MCC recipient purchasing an existing home was 30; the average family size was two. The average household income

was approximately \$32,663, and the average home sale price was approximately \$97,799. The FY 2006 goal was 800 units and \$65,000,000. The Authority achieved its goal in this program.

**Property Improvement Loan Program**

This program helps preserve older, existing housing by offering loans with interest rates of 4, 6 and 8%, depending on borrower's income, to homeowners that meet income limits.

In FY 2006, this program made 143 loans, totaling \$1,782,769. Sixty-three percent of these loans were to borrowers over 45 years of age, and approximately 76% of the loans went to improve homes that were 40 years of age or older. The FY 2006 goal was 200 loans totaling \$2,500,000. The Authority missed its goal in this program due to the overall economic turndown in Michigan and high unemployment, which affected PIP production.

**II. FY 2007 Production Goals Summary**

July 1, 2006 to June 30, 2007:

<u>Program</u>	<u>Funds</u>	<u>Units/Loans</u>
Multifamily Direct Lending	\$120,000,000	2,000
Multifamily Pass-Through Loans	\$50,000,000	800
Single Family Loans	\$171,800,000	1,750
Michigan Mortgage Credit	\$75,600,000	800
PIP Loans	\$2,300,000	165
<b>TOTAL:</b>	<b>\$419,700,000</b>	<b>5,515</b>

**III. Other Information**

**Social and Economic Benefits**

Section 32(16)(b)(c)(d)(e) and (f) requires the Authority to report on the social and economic benefits of MSHDA's housing projects to the immediate neighborhoods and the cities in which they have been constructed, the extent of direct and indirect displacement of lower income persons, and the extent of additional reinvestment activities attributable to the Authority's financing of these projects.

The obvious short-term benefits are the increased availability of quality, affordable housing for low and moderate income people, increased construction contracts and sales for builders and realtors, and increased Community Reinvestment Act production for local lenders. Further, the multifamily developments financed by the Authority employ people who receive salaries and expend dollars for vendor services.

Developments also provide common space designed to enhance the community. Within these spaces many developments allow local senior citizen groups to provide meal service, medical examinations, and classes of various kinds. In other developments, there are police mini-stations, food cooperatives, book exchanges, craft shows, neighborhood watch programs, senior pal programs, and youth work programs.

The Authority requires, as part of the underwriting process, that relocation planning be performed and implemented in any situation where a MSHDA loan would result in the displacement of lower income people. As a matter of policy, the Authority avoids approval of loans where such displacement cannot be adequately addressed.

### **Demographic Information**

Section 32(16)(g) requires the Authority to report on the age, race, family size, and average income of the tenants in housing projects.

#### **EXHIBITS II, III, AND IV DETAIL DEMOGRAPHIC INFORMATION FOR THE SINGLE FAMILY, MCC AND PIP PROGRAMS IN FY 2006.**

The information for Multifamily projects closed in FY 2006 is unavailable because these developments are still under construction and not yet occupied.

### **Construction Jobs Created, Wages and Taxes Paid**

Section 32(16)(h) requires the Authority to estimate the number of construction jobs created, wages paid, and taxes and payments in lieu of taxes paid.

#### **EXHIBIT V ESTIMATES THE NUMBER OF CONSTRUCTION JOBS CREATED, WAGES PAID, AND TAXES PAID IN FY 2006.**

Authority-financed housing created approximately 3,000 jobs and paid approximately \$72 million in taxes.

### **Grants Made to Local Units of Government and Non-Profit Housing Service Providers**

In FY 2006, 433 grants were made to Local Units of Government and Non-Profit Housing and Service providers, for a total grant expenditure of over \$43 million.

#### **EXHIBIT VI DETAILS THE GRANTS MADE TO LOCAL UNITS OF GOVERNMENT AND NON-PROFIT HOUSING AND SERVICE PROVIDERS.**

### **Mobile Home Parks, Non-Profit Housing Projects, and Cooperative Programs**

Section 32(16)(i) requires the Authority to report on the progress in developing mobile home parks and mobile home condominium projects, constructing or rehabilitating consumer housing cooperative projects, and in financing construction or rehabilitation of non-profit housing projects.

In FY 2006, no mobile home parks were financed under the Authority's Michigan Mortgage Credit Certificate Program or Single Family Program.

### **Neighborhood Preservation Program**

Section 32(16)(j) requires the Authority to report on the progress in developing the Neighborhood Preservation Program.

The original Neighborhood Preservation Program began in 1989 and financed approximately 429 units of small-scale multi-family housing units. The program was evaluated, changed, and re-introduced in 1998. The goals of the program are to positively impact the image, physical conditions, and market and neighborhood management of the target neighborhoods. Since 1998, approximately \$28,340,732 in grants/loans have been made in 32 communities across the state. Twenty-six grants have been made to the City of Detroit or other communities in Wayne county; 53 to medium to large cities; 14 to UP communities, and the balance to small towns.

Each NPP produces housing units either through new construction, rehabilitation of space for rental units (usually above businesses downtown), or purchase/rehab for resale. In addition, each project includes homeowner rehabilitation, beautification through banners, landscaping and/or neighborhood signs, and marketing activities to improve the image of the neighborhood.

### **Prepayment of Federally and Authority Assisted Loans**

Section 32(16)(k) requires the Authority to report on the status of federal programs that assist low income tenants displaced as a result of prepayment of federally or Authority assisted loans.

In FY 2006 the Authority adopted new preservation lending parameters for Section 236, Section 8, and all other federally assisted and MSHDA-financed rental housing. This housing stock, that currently serves Michigan's lowest income citizens and was typically built between 1974 and 1985, is in need of rehabilitation and preservation.

The Authority offers tax-exempt and taxable preservation lending to extend the affordability, viability, and livability of this existing rental housing for a minimum of 35 years. A Preservation Fund loan may be available as additional gap financing for eligible developments in the event the Authority determines the transaction will not adequately address unmet physical needs. When a Preservation Fund loan is provided, affordability restrictions will apply for 50 years. No tenants are displaced as a result of these transactions.

### **Low Income Housing Tax Credit**

Section 32(16)(l) requires the Authority to report on the status of the Low Income Housing Tax Credit (LIHTC) including the amount of tax credits allocated, projects that have received tax credits, reasons why projects were denied tax credit, a geographical

description of the distribution of tax credits, and a description of any amendments to the allocation plan made during the year.

During FY 2006, the Authority allocated \$28.9 million in tax credits to 69 developments helping create 3,410 units of affordable housing

**EXHIBITS VII AND VIII PROVIDE A GEOGRAPHIC DESCRIPTION OF CREDITS ALLOCATED AND A LIST OF PROJECTS DENIED CREDIT, WITH REASONS FOR DENIAL.**

No changes were made to the Qualified Allocation Plan in FY 2006.

**Education and Training Opportunities**

Section 32(16)(m) requires the Authority to report on education and training opportunities provided by the Authority including the types of education and training and the amount of funding committed to these activities. Education and training opportunities provided by the Authority primarily include the Contractor's Assistance Program and our Technical Assistance efforts. The Contractors Assistance Program is discussed below.

The Authority provided Technical Assistance to nonprofit housing organizations throughout the state with seventy-two contracts made to thirty-eight different Technical Assistance providers, at a total cost of \$1,064,309.

**EXHIBIT IX DETAILS GRANTS MADE TO TECHNICAL ASSISTANCE PROVIDERS FOR FY 2006.**

**Contractors Assistance Program**

Section 22(bb) requires the Authority to report on the status of the Contractors Assistance Program (CAP). The CAP was introduced in 1992 to provide more opportunities for small, minority or women-owned contractors to achieve success and independence. In FY 2006, no loans were made.

**Housing Choice Voucher Program**

The Housing Choice Voucher Program utilizes the private rental market to provide housing to low-income residents. Residents live in single family or multifamily rental dwellings, paying between 30% and 40% of their gross income for rent. In FY 2006, an average of 22,489 families participated in this program; the average age for the head of household was 46 years, and the average adjusted household income was \$9,826.

**Michigan Broadband Development Authority**

Section 32(17) requires the Authority to conduct an annual review of all loans and financial instruments that require repayment, or lines of credit with the Michigan Broadband Development Authority (MBDA). The review shall contain an analysis of the MBDA's ability to repay all loans, financial instruments that require repayment, and lines

of credit with the Authority and the amount and payment schedule of all current loans, financial instruments that require repayment, and lines of credit with the Authority. The review shall also contain an analysis of the number of Authority assisted or financed developments and homes purchasing high-speed Internet connections at substantially reduced rates as a direct result of loans from the MBDA.

**EXHIBIT X DETAILS THE REVIEW OF ALL AUTHORITY FINANCED LOANS, FINANCIAL INSTRUMENTS OR LINES OF CREDIT, AND REPAYMENT SCHEDULES ADMINISTERED BY THE BROADBAND AUTHORITY.**

**REPORT OF THE MICHIGAN BROADBAND DEVELOPMENT AUTHORITY**

**FY 2006 (07/01/05 TO 06/30/06)**

The MBDA had a \$50 million line of credit with MSHDA until November 16, 2005. A revised investment agreement has been approved by the MSHDA Board of Directors and the MBDA Board of Directors to restructure and write-off losses associated with this MBDA/MSHDA line of credit. Prior to this revised agreement, the MBDA drew roughly \$24 million for loans and operational expenses. The new investment agreement between the agencies provides \$17 million (for loans only) to the MBDA for its implementation of a new lending program targeted at rural underserved markets. The agreement restricts draws to this purpose only. The agreement provides \$995,000 for future MBDA operational expenses and provides approximately \$6 million for loan draws related to previously-approved MBDA loans.

As a result of the new agreement, MSHDA will not be seeking full repayment on its original MBDA investment and anticipates writing off a loss of approximately \$10 million. However, all fees and future borrower loan payments of MBDA-approved loans have been assigned to MSHDA under the new investment agreement. MSHDA will be earning 8 percent on roughly \$18 million in loans and 4 percent on \$17 million in loans over the next 5 to 7 years. Given the level of due diligence performed and the security structures on these loans, we anticipate earning a modest amount of interest income to help off-set the aforementioned loss.

In September '05, the MBDA closed a loan to Control Room Technologies (also known as Arialink Communications) as part of its "Digital Divide Investment Program" (DDIP). This program combines Community Development Block Grant (CDBG) dollars with MBDA loans. In the five low-income townships targeted by this program, more than 3,300 low/moderate income households will have access to broadband services at less than \$19 per month. There will be no installation charge, and the price of \$18.99 per month will be offered for at least three years. Other low-income households throughout all of Muskegon County will benefit from the same pricing structure. The MBDA is also piloting this DDIP program in Marquette County and the City of Springfield, although the loan/grant activities in these communities have not yet closed.

The Michigan Broadband Development Authority (MBDA) has made loans to broadband providers offering service in more than 300 cities townships and villages across the state. Availability and affordability of services has improved in each of these communities as a result of these providers expanding services with MBDA loans. MSHDA has helped finance homes and developments in each of these communities over the years, but has no way to cost-effectively quantify how many of its developments or low-income customers have benefited or purchased services from these new broadband providers.
