If you wish to retain any data from the 2019-20 school year, download and save your collection and reports by **July 2**. After this date, users will no longer have access to staging areas or reports in MSDS for that school year.

Important Information on UICs

Acquiring UICs at Student Enrollment

It is best practice to acquire and assign UICs at student enrollment. Early acquisition of UICs enables the integration of student level data across state systems (e.g., MiSSG and STARR). This is especially important in enabling the state to assist in completing compliance reporting requirements in support of various college grant programs.

Ensuring Primary UIC is in Student Information System

When an entity submits a UIC into a collection or reruns resolution, the matching process may replace it with a primary UIC in the collection. This can occur when the submitted UIC has previously been linked and is now a secondary UIC. Please refer to the List of Changed UICs Report, a point-in-time

report, in the IHE Request for UIC and the STARR collections to ensure the primary UIC is listed in your student system. This report is found in the staging area under UIC Resolution Reports.
