ARE YOU LOOKING FOR AN EXCITING OPPORTUNITY TO USE YOUR TECHNICAL SKILLS?

The Center for Educational Performance and Information (CEPI) is recruiting to fill an analyst position for its MI School Data web site, the public face of statewide student, staff, finance, assessment, and school directory data collected and maintained by CEPI and education partners. In this role, the analyst is part of a team that carries out the development and maintenance of a web site that meets the needs of the public while providing a tool for professional educators to improve student achievement.

Responsibilities include a wide range of assignments related to system requirements, user interface, system documentation, and assisting in the implementation of planning, design, development, testing, evaluation, operation, enhancement and maintenance functions (60% of duties). The position also includes carrying out user administration, documentation, training and awareness, usability, data validation, and data visualization duties for the MI School Data site (35% of duties).
