Call for Interview Participants for MI School Data Reorganization

The Center for Educational Performance and Information (CEPI) is pleased to announce the following opportunity to participate with www.mischooldata.org.

- The Center for Educational Performance and Information (CEPI) is seeking members from the educational community to participate in a valuable conversation that will allow us to better understand how people, like you, use education data on a regular basis to make informed decisions. The conversations that we have will inform and direct a new design for the state's educational data portal, MI School Data. At this time, CEPI would like to reach out to principals, superintendents, teachers, and guidance counselors to learn how you use and access education data and information. If you are interested in participating, please take our brief [MI School Data Interview Screener](#).
