Preliminary Financial Reports Released to Public

The Center for Educational Performance and Information has released the 2015-16 [Preliminary Financial Reports](#) to the public on www.mischooldata.org. This collection of reports includes expenditure, revenue, fund balance, and balance sheet data on district and statewide levels. In addition, the [District Financial Transparency Dashboard](#) is available for a second year. The dashboard gives users a comprehensive view of district finances and includes five-year trend information.

Preliminary financial data appears exactly as submitted by districts via the Financial Information Database as of the November 1, 2016 legislative deadline. No data cleansing has been applied to the preliminary posting.

Final financial reports are expected to be published in the first quarter of 2017.
