Removal of 2019-20 MSDS School Year Data

CEPI will remove all 2019-20 school year data from the staging area during school year rollover. If you wish to retain any data from the 2019-20 school year, be sure to download and save your collections and reports by Sept. 17. After this date, users will no longer have access to staging areas or certified reports for that school year.

For more information, please read the Aug. 4 CEPI announcements.

Removal of Request for UIC Data, Updated Schema and Sample

CEPI will remove all Request for UIC Collection data from the staging area during the school year rollover. If you wish to retain any data from this collection, be sure to download and save data and reports by Sept. 17. After this date, the new Request for UIC Collection will open for the 2021-22 school year.

Fall 2021 REP Collection and Educator Evaluation Appeals Open

The Fall 2021 REP Collection is officially open as of today, Sept. 1. Certified data are due to CEPI by 11:59 p.m. EST on Dec. 1.

Please review the Fall 2021 REP Data Field Descriptions guide for new and removed assignment codes.

The Teacher Student Data Link Collection is required for all students, which increases the need for accurate Fall and EOY REP reporting. Many data quality issues are tied to the assignment and PIC reporting in REP. To address the data quality issues and review processes, CEPI recommends reviewing the Best Practices for REP and TSDL Course Reporting document at the start of the school year.

The Educator Effectiveness Appeals window has also opened for submissions. It is important that all inaccurately reported ratings are corrected through use of the EE Appeals Window. For more information on how to submit an appeal, please see the Educator Effectiveness Appeals guide. The EE Appeals window will end at 11:59 p.m. EST on Dec. 1.
