CEPI has released 2013 state, district, and building graduation and dropout rates and these data are now available in MI School Data (<https://www.mischooldata.org>). You are now free to use these rates publicly.

To access the 4-year (2013), 5-year (2012) and 6-year (2011) Cohort District Graduation and Dropout Rates, please follow these steps:

- Log in to MI School Data at <https://www.mischooldata.org/> (the login button is on the upper left-hand side of the landing page) using your user name and password.
- Click on the “Student Counts” link on the left-hand side.
- Click on the “Grad/Dropout Rate” tab in the center of the page.
- Choose the ISD and district you wish to review.
- Once selected, further filter the data using the “Report Settings” selections.
- **New this year** – graduation and dropout student detail (in addition to the rates) are now available in MI School Data. To access the student detail, click on the desired section of the bar graph OR click the “Student Breakdown” radio button.

To view suppressed data or student detail, you must be a MI School Data authorized user for your entity and be logged in to the site. Please note:

- If you have an existing MI School Data (or Data for Student Success) user name and password, you should already have access to the site. However, you may need to contact your intermediate school district (ISD) or local user administrator to secure a “preview role” which is needed for access to the graduation and dropout rates.
- If you do not already have access to MI School Data, please contact your ISD or local user administrator for access to the site and to request access to graduation and dropout rates.
- Authorized GAD application users will also be able to view graduation and dropout student detail in addition to the rates in the GAD application (<https://cepi.state.mi.us/GradDrop/>). **Please be advised that, beginning in January 2015, final graduation and dropout student detail/rates will ONLY be available in MI School Data.**

Documentation on how the rates are calculated, frequently asked questions and links to federal regulations for calculating the rates can be found in the Support Documents section of the following Web page: [http://www.michigan.gov/cepi/0,4546,7-113-21423\\_30451\\_51357---,00.html](http://www.michigan.gov/cepi/0,4546,7-113-21423_30451_51357---,00.html).

If you have any additional questions regarding MI School Data, please contact the MI School Data Help Desk at [helpdesk@misd.net](mailto:helpdesk@misd.net).

For any other questions, please send an email message to [CEPI@michigan.gov](mailto:CEPI@michigan.gov) or call 517-335-0505 and select option 3. Please provide your name, district code and district name (if applicable), the CEPI application name, your telephone number (including area code and extension), your email address and your specific questions.

Thank you.
