MSDS Data Pull for LEP Students Grades K-12 for WIDA

The following message is being communicated on behalf of the Division of Accountability Services (DAS).

DAS will do a final pull of student enrollment and demographics for assessment and accountability reporting from the Michigan Student Data System (MSDS) for WIDA using the data submitted and certified by 5 p.m. on May 2, 2016. DAS will pull the Fall MSDS General Collection (fall count day), Spring MSDS General Collection (spring count day) and student record maintenance (SRM) files submitted and certified through May 2, at 5 p.m. with an “as of date” on or before March 25, 2016. Student exit and enrollment information along with student demographics will be pulled from MSDS. It is especially important to make sure students are identified as Limited English Proficient (LEP) in MSDS by May 2 with an “as of date” on or before March 25 or the WIDA test will be invalidated and the student will not receive WIDA scores. The Secure Site is currently updating student demographics (not enrollment or exits) from MSDS daily. If you pre-identify a student to the WIDA and LEP is not updated and marked on the Secure Site by the following day, check with your district MSDS person to make sure the student will be included in the Spring MSDS General Collection as LEP.
